

# Control Panel Chooser

The control panel chooser allows you add a dropdown list of definable control panels on the products order form allowing the client to choose a control panel on order. This feature supports auto activation using BuycPanel.

1. Create a new configurable option group like at the image below

## Configurable Option Groups

### Manage Group

Group Name	Control Panel
Description	Control Panel
Assigned Products	blah - gjhgj blah - Reseller 1 blah - Reseller 2 blah - rstest1 blah - test license <b>blah - testpackage</b> <b>blah - testpackage2</b> Reseller Products - Small Reseller Product

### Configurable Options

Add New Configurable Option

Option	Sort Order
Control Panel	0

Save Changes

Back to Groups List

2. Add a new configurable option to the new group. The default name for the configurable option is 'Control Panel', however this can be changed to a custom name using the correct hash variable.

3. Select **Option Type Dropdown**.

4. In Field **Options** define your locations with a friendly name and the control panel license ID (cPanel Monthly is ID 1 & cPanel Yearly is ID 2).

Example:

### Configurable Options

Option Name: Control Panel Option Type: Dropdown

Options		Monthly	Quarterly	Semi-Annual	Annual	Biennial	Triennial	Order	Hide
None	USD	Setup 0.00	0.00	0.00	0.00	0.00	0.00	0	<input type="checkbox"/>
		Pricing 0.00	0.00	0.00	0.00	0.00	0.00		
1 cPanel Monthly	USD	Setup 0.00	0.00	0.00	0.00	0.00	0.00	1	<input type="checkbox"/>
		Pricing 10.00	0.00	0.00	0.00	0.00	0.00		
2 cPanel Yearly	USD	Setup 0.00	0.00	0.00	0.00	0.00	0.00	2	<input type="checkbox"/>
		Pricing 100.00	0.00	0.00	0.00	0.00	0.00		
Add Option:								0	<input type="checkbox"/>
